TCL SETUP PROCEDURE

TCL DISPLAYS (ANDROID OPERATING SYSTEM)

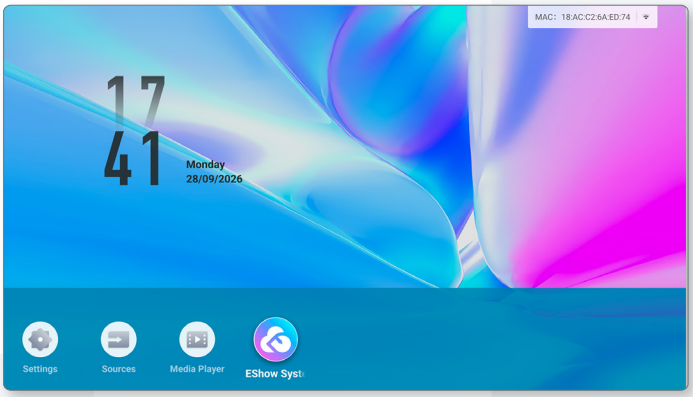

– WWW.WEEZAGO.COM –

TCL PROCEDURE

— ANDROID OPERATING SYSTEM —

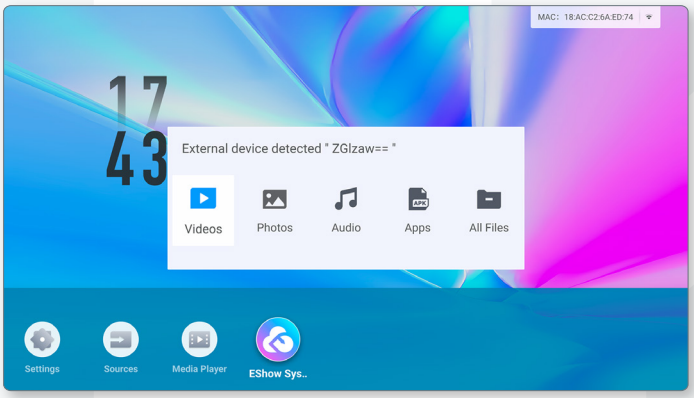

1. PREPARE THE DISPLAY AND USB DRIVE

- Power on the display. The TCL home screen appears, with the display's MAC address shown in the upper-right corner. Insert the USB drive containing the **weezago.player.apk.**

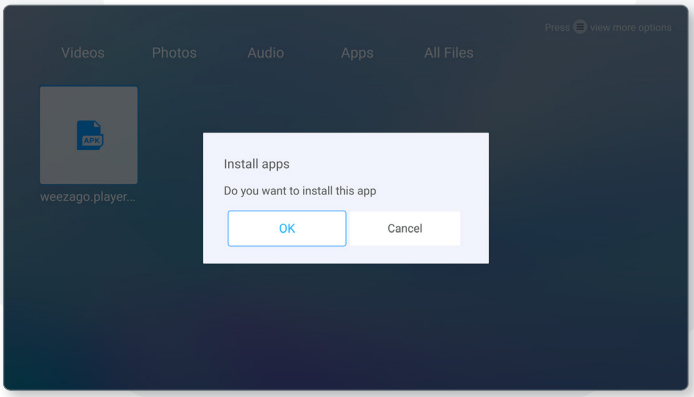

2. DETECT THE USB DRIVE

- The message "**External device detected**" appears. Select "**Apps**" (or All Files) to locate the APK file.

3. INSTALL THE APPLICATION

- Select the **weezago.player.apk** file. When the message "**Install apps – Do you want to install this app**" appears, select "**OK**".

TCL PROCEDURE

— ANDROID OPERATING SYSTEM —

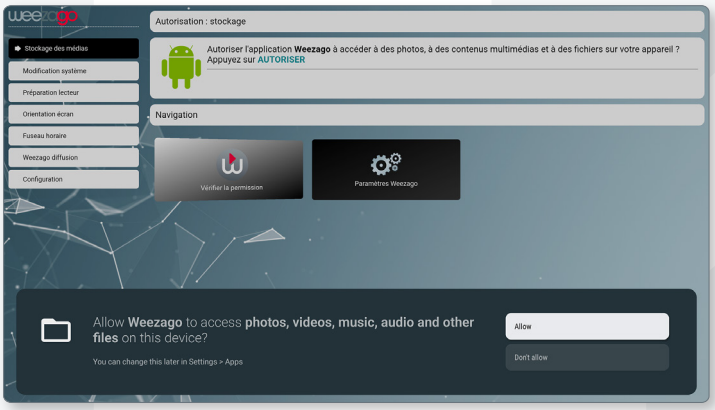

4. LAUNCH WEEZAGO

- Once the installation is complete, the Weezago icon appears in the bottom toolbar of the TCL home screen. Select the icon to launch the application.

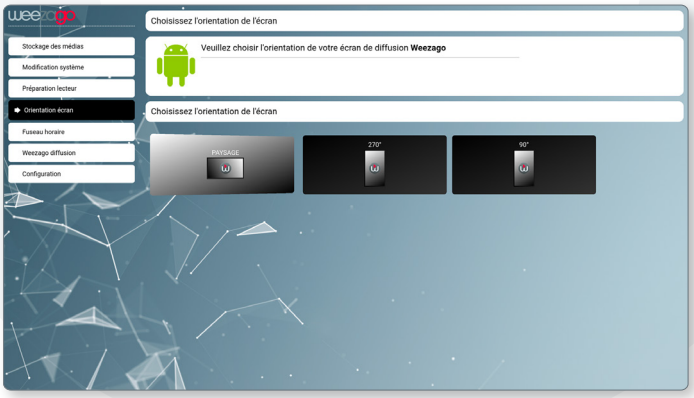

5. STORAGE PERMISSION

- In the setup wizard, navigate to the "**Stockage des médias**" step. Select "**Vérifier la permission**", then Allow in the Android permission dialog.

6. SET DISPLAY ORIENTATION

- At the "**Orientation écran**" step, select Paysage (Landscape), 270°, or 90°, depending on the physical mounting orientation of the display.

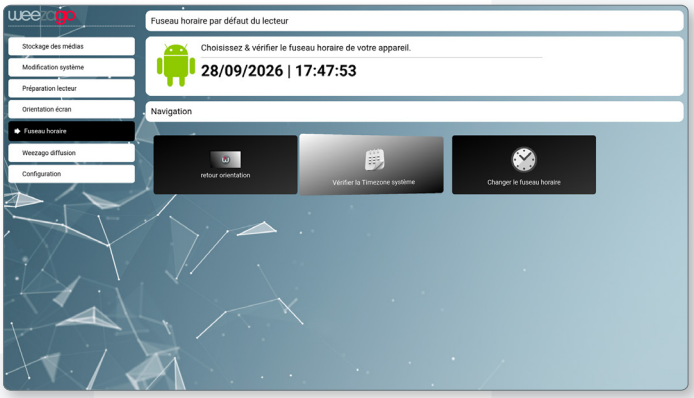

TCL PROCEDURE

— ANDROID OPERATING SYSTEM —

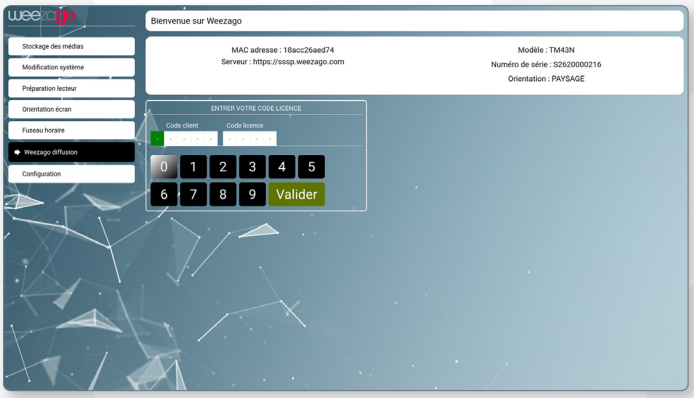

7. CONFIGURE THE TIME ZONE

- At the "**Fuseau horaire**" step, check the displayed date and time using "**Vérifier la Timezone système**". If necessary, select "**Changer le fuseau horaire**".

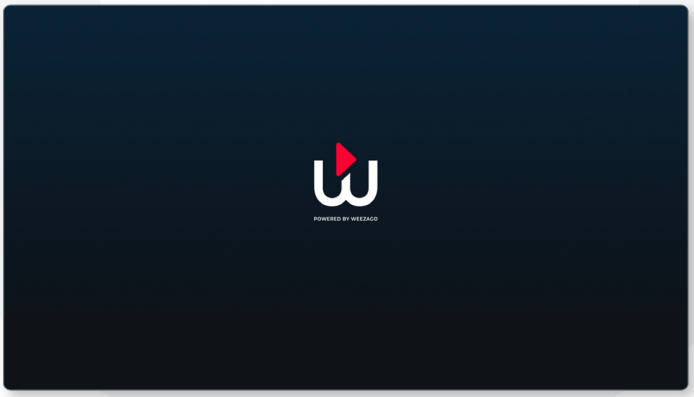

8. ACTIVATE THE DISPLAY

- At the Weezago diffusion step, the display shows MAC, model, serial number, and server address **sssp.weezago.com**. Enter the 5-digit client code and 4-digit license code. Select "**Valider**".

9. START THE PLAYER

- The "**Powered by Weezago**" logo appears before the scheduled content starts playing.

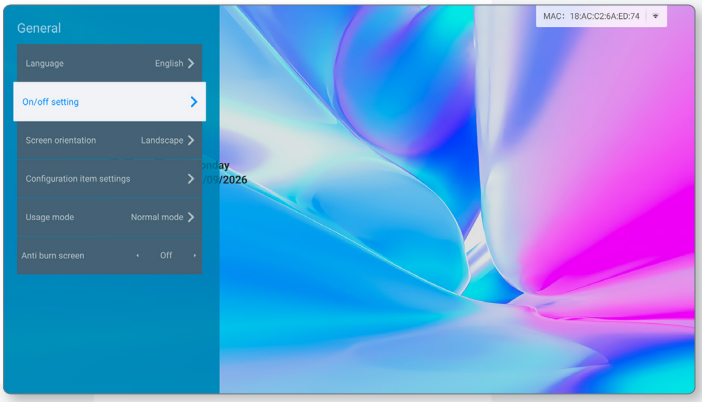

TCL PROCEDURE

— ANDROID OPERATING SYSTEM —

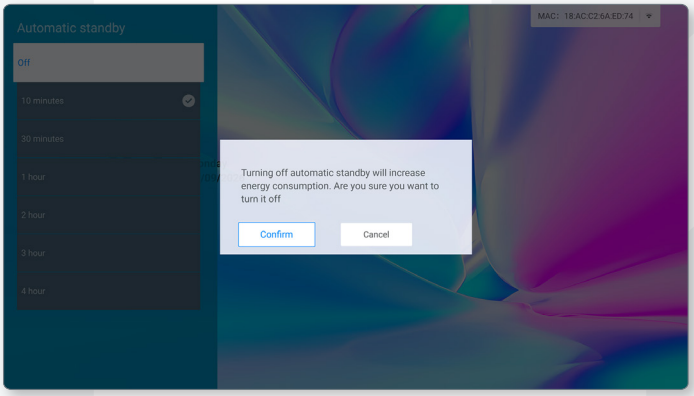

10. CONFIGURE AUTOMATIC STANDBY (1/2)

In the TCL display settings, navigate to "**General**", then select "**On/off setting**".

11. CONFIGURE AUTOMATIC STANDBY (2/2)

Under "**Automatic standby**", select "**Off**". This setting is mandatory for continuous digital signage operation. Select "**Confirm**" when the warning message appears. The installation is now complete.
